## CAREER OBJECTIVES

I am a highly motivated computer engineer seeking employment at a reputable company to pursue my passion to learn more and develop skills as a software developer. What I can offer is my strong and genuine willingness to learn and to contribute my acquired knowledge and skills from my previous experiences, as I become part of the process of attaining the company's goal.

## SKILLS

- HTML
- CSS
- JavaScript
- RESTful API interfaces
- Database Management
- React
- Redux
- Node.js
- Database Design

## PROJECTS

I have done mini projects such as, static websites (<https://github.com/pfuture17/ran-online-website>), JavaScript game (<https://github.com/pfuture17/Whack-a-mole-game>), and react + redux projects on (<https://github.com/pfuture17>). I am currently working on my full stack on-going project, which is the online voting system.
